

More than 40 libraries and documentation centres

Documentation Centres of Department and Research Units*

■ **AMAP: Botany and computational plant architecture** – Montpellier
Contact: Yannick Brohard (yannick.brohard@cirad.fr)

■ **ART-Dev: Acteurs, Ressources et Territoires dans le Développement** (research unit on the analysis and the understanding of the territorial processes) – Montpellier
Contact: Sylvie Hammel (sylvie.hammel@univ-montp3.fr)

■ **BGPI: Biology and genetics of plant/pathogen interactions** – Montpellier
Contact: Marie-Carmen Martinez (marie-carmen.martinez@cirad.fr)

■ **BPMP - Biochemistry and Plant Molecular Physiology** – Montpellier
Contact: Chantal Barraco (baracco@supagro.inra.fr)

■ **CEFE: Centre of Evolutionary and Functional Ecology** – Montpellier
Contact: Anne Gorgeon (bibcefe@cefe.cnrs.fr)

■ **CBAE: Centre for Bio-Archeology and Ecology** Montpellier
Contact: Nicole Denis-Touzillier (denis.tou@univ-montp2.fr)

■ **CEBTM: Centre of Biology and Ecology Tropical and Mediterranean** – Perpignan
Contact: Anne Modat (anne.modat@univ-perp.fr)

■ **Geography department – University of Montpellier 3** – Montpellier
Contact: Sylvie Deveze (sylvie.deveze@univ-montp3.fr)

* The research units include research teams from the following institutions: CIHEAM-IAM.M, CIRAD, CNRS, EPHE, INRA, IRD, Montpellier SupAgro, Universities of Montpellier 1-2-3, University of Perpignan via Domitia.

■ **Pierre Bartoli Library** - Montpellier
Contact: Caroline Falize (falize@supagro.inra.fr)

Two research units and one department share the library's resources
 LAMETA: Montpellier Theoretical and Applied Economics Laboratory
 MOISA: Market, Organization, Institution et Actor Strategy)
 SESG: Economy, Social and Management Sciences

■ **CILBA: International Complex of Biological Control at Agropolis** – Baillarguet
Contact: Christine Silvy (silvy@supagro.inra.fr)

Three research units share the CILBA library's resources
 CBGP: Center for Biology and Management of Populations
 USDA/ARS: United States Department of Agriculture/Agricultural Research Service/EBCL: European Biological Control Laboratory
 CSIRO European Laboratory: Commonwealth Scientific and Industrial Research Organisation

■ **Geosciences Montpellier** – Montpellier
Contact: Sylvie Raynaud (sylvie.raynaud@gm.univ-montp2.fr)

■ **INNOVATION: Innovation and Development in Agriculture and the Agrofood Sector** Montpellier
Contact: Catherine Alquier (alquier@supagro.inra.fr)

■ **ISEM: Montpellier Institute for Evolution Sciences** – Montpellier
Contact: Christine Bibal (bibal@isem.univ-montp2.fr)

■ **LBE: Laboratory of Environmental Biotechnology** – Narbonne
Contact: Véronique Maugenet (veronique.maugenet@supagro.inra.fr)

■ **MTD: Remote Sensing Center** – Montpellier
Contact: Sylvie Blin-Sarah (docmtd@teledetection.fr)

■ **MSE: House of Water Sciences** – Montpellier
Contacts: Catherine Picq / Joëlle O'Sughrue (osughrue@msem.univ-montp2.fr & picqcat@msem.univ-montp2.fr)

Editions departments

Professionals of the editions departments of the institutes are part of Agropolis International STI Committee

■ CNRS Editions

■ Editions AgroParisTech/ENGREF

■ Editions IRD

■ Editions Montpellier SupAgro

■ Editions BRGM

■ Editions Quae (CEMAGREF, CIRAD, IFREMER, INRA)

■ Publications CIHEAM

■ University of Montpellier 3 Publications: *Presses universitaires de la Méditerranée*

Scientific and Technical Information (STI) facing the issues of a high-level research and training

STI within the Agropolis scientific community in the South of France (Montpellier and the Languedoc-Roussillon Region) brings together:

- 250 information scientists
- 43 documentation centres and edition departments
- 1.5 million documents and collections of periodicals (paper, electronic)
- a network and tools for the use of students, researchers, teachers of the regional and international scientific community

Agriculture
 Food
 Biodiversity
 Environment

Montpellier Languedoc-Roussillon
 World centre for agricultural, food and environmental sciences

Designed by Agropolis Productions (info@agropolis-productions.fr) • Printed by les Petites Affiches (France) • 05/2009

More than 40 libraries and documentation centres

AGROPOLIS INTERNATIONAL

Key figures

- 12 national and international training and research institutions
- 7 higher education institutes
- 5 universities
- 92 research units
- 2300 research scientists and lecturers
- 4000 students and trainees
- 1400 technical and administrative staff

About Agropolis International

- a gateway to the skills of the scientific community of Montpellier and the Languedoc Roussillon region in the fields linked to agriculture, food, biodiversity, environment and rural societies, open to the Mediterranean and tropical regions development
- an interface at the heart of scientific cooperation networks to support collective projects
- a pilot platform to develop inter-institutional partnerships and new organisation methods
- services for guest-researchers, invited professors and visiting delegations

Agropolis Scientific and Technical Information Committee

The persons in charge of the Documentation centres and Edition departments meet regularly in the framework of the 'Scientific and Technical Information Committee' (STIC) founded in 1985.

This committee sets up services and common actions aiming at facilitating information search for the regional and international scientific community.

Flagship issues of the STI Committee on going projects and achievements

- Edition of a **new portal** allowing resources and skills location in the information field in Languedoc-Roussillon, South of France (April 2008)
▶ www.ist.agropolis.fr
- Implementation of an **online single query interface** enabling simultaneous searching through academic and scientific bibliographic catalogues of the community (since 2003)
▶ www.bomlr.info
- Organisation of **workshops** for both scientific and information staff on specific topics (open sources softwares, for example)
- Organisation of **common training sessions** for end users with trainers from several institutions in the framework of continuing education
- Common **display of institutional editions** of Agropolis International members
- Preparation of the **international IAALD congress** on information and rural development to be held in Montpellier in 2010
▶ iaald2010.agropolis.fr

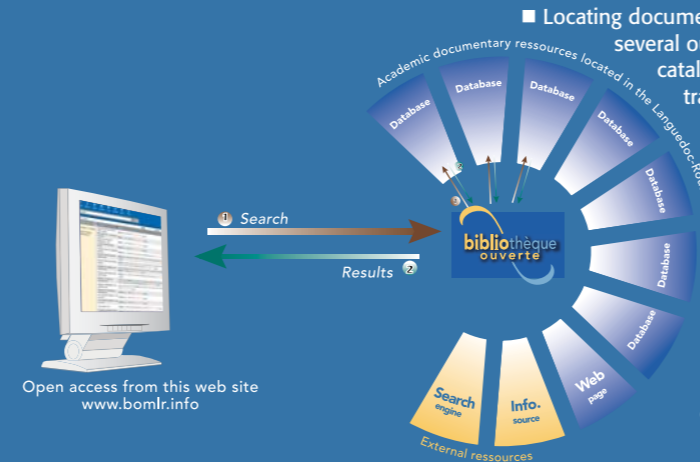

Scientific and Technical Portal
A collaborative platform dedicated to the regional and international community

- Agenda: Information on training sessions, meetings and events
- BOMLR: Searching a document or periodical and its location
- 'Bases de données' (Data bases): Searching an electronic resource and its location
- 'Centres de documentation' (Documentation Centres): Information on documentation centres and libraries: contacts, fields covered, opening hours.
- Tools for information search to help end users
- Direct access to edition and libraries catalogues of Agropolis International member institutions
- Intranet dedicated to STI staff in order to share and store resources

www.bomlr.info

BOMLR
a metasearch software to perform simultaneous searching through heterogeneous catalogues

Open access from this web site
www.bomlr.info

- Locating documents entries through one or several out of the 31 bibliographical catalogues of the post graduate training and research libraries
- Locating periodicals that can be consulted in these libraries
- Consulting scientific publications and students' works (soon)
- Searching simultaneously through all these resources and widening the search to external resources (soon)

More than 40 libraries and documentation centres

- ▶ Detailed information on these libraries is available on the STI portal:
www.ist.agropolis.fr

Libraries and documentation centres of Institutions

- **AgroParis Tech/ENGREF** – Montpellier (National School of Rural, Water and Forest Engineering)
Contact: Claude Maire (claudemaire@engref.agroparistech.fr)
